TOP™

TRANSPORTABLE OPERATIONS PLATFORM™

Durable & Transportable

Self-sustainable unit for military, government, or commercial operations. Made from durable shipping containers that can withstand any environment.

Safe, Secure, & Quiet

Customizable to meet SCIF and TEMPEST requirements for various environments.

Lower Maintenance & Longer Life

Reduced maintenance costs and increased service life compared to portable office trailers.

Easy Accessibility

Transportable by air, land, or sea... it goes where you go!

Operational in 30 Minutes

From deployment to up-and-running in as little as thirty minutes.

FAST, Efficient Production

DTB's provides complete support at every step to design, configure, and deliver your TOP while reducing lead times and containing costs.

Dayton T. Brown, Inc. (DTB) Mission Systems Division offers high level integration, including design, build, and test of transportable, proven Transportable Operations Platforms.

We're strategically located in Pax River, Maryland, with engineering, programmatic, and fabrication personnel located in our new 44,000 sq ft manufacturing and integration facility.

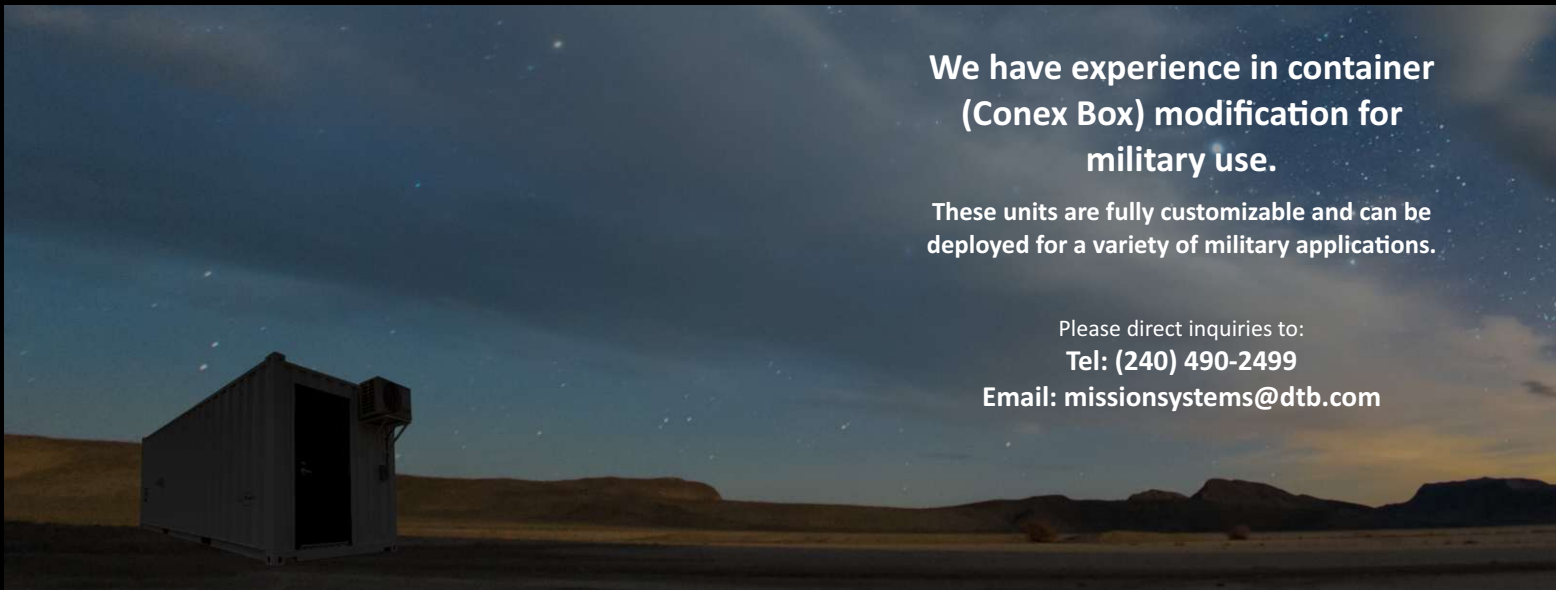

We have experience in container
(Conex Box) modification for
military use.

These units are fully customizable and can be
deployed for a variety of military applications.
